OFFICE ORDER

Subject: Optimization of Field Operations for Enforcement Sample Collection

In view of the department's critical role in safeguarding public health through enforcement and sample collection, it has been observed that the existing practice of undertaking field sampling activities predominantly after lunch hours is adversely affecting the efficiency and effectiveness of operations.

To ensure optimal utilization of time and resources, and to strengthen enforcement activities, it is hereby directed that all Food Safety Officers (FSOs) and Field Assistants (FAs) shall proceed for their assigned field duties **before 12:00 noon**, strictly in accordance with the Inspection Orders issued by the competent authority.

All concerned officers shall ensure strict compliance with these instructions. Any deviation or non-compliance shall be viewed seriously, and the responsibility for the same shall rest solely with the concerned officer.
